

# ANTHEM ON ASHLEY

ATLANTA, GEORGIA

The apartments at Anthem on Ashley overlooks the Historic Fourth Ward Park and feature a stunning two-acre lake, walking trails, and a splash pad. The interior courtyard features a saltwater pool, cabanas, greenspace, grilling stations, or the perfect afternoon. Unfortunately, the drainage and waterproofing system below the pool had failed, resulting in water leaks, drainage issues, and heaving of the overburden. United was tasked with removing the overburden, removing and replacing the HRA waterproofing system, improving the structural level drainage system, reinstating the geofoam, placing a new topping slab, and final wear surfaces. The repair also required the removal and rebuilding of 20% of the pool structure. This was all completed on time while overcoming the challenges of an enclosed courtyard that restricted equipment access and required inline pumping of concrete over 300 feet.

## SERVICES PROVIDED

- Concrete / Structural Restoration
- Plaza Deck Restoration
- Sealants / Waterproofing

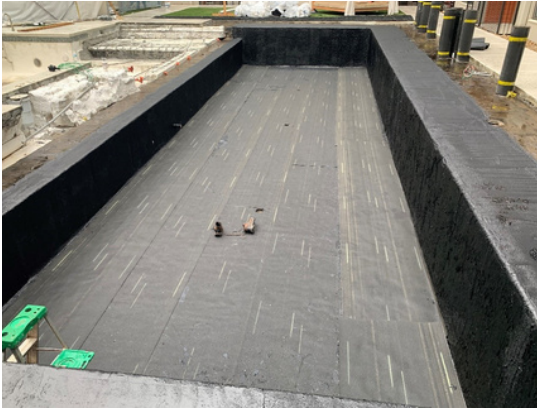

## PROJECT INFO

- Duration 3 Months
- Completed August 2020
- Contract \$ 356,930
