Professional Summary

- In Spring of 2007, Jason became a founding shareholder of United Restoration and Preservation. As President, Jason manages all aspects of the company's operations to include: sales, production, and administration. He also is responsible the company's profitability and supervising aspects of quality control. Jason works directly with all URP employees to manage all relationships with Genreal Contractors, Subcontractors, Building Owners and Managers. His oversight extends over all related contract agreements, scheduling, billings, and collections.

Representative Projects

- **MERIDIAN CITY HALL** - Large scale masonry restoration project on a 100 year old City Hall Building. The project was reviewed by the Historical Society and The Mississippi Department of Archives. The restoration included: terra cotta restoration and replacement, tuck-pointing, caulking, paint removal, and façade cleaning. Won award for BEST HISTORIC RESTORATION 2009 issued by Masonry Construction Magazine.
Project Value - \$3,500,000
- **HARRIS COUNTY COURTHOUSE** - A complete restoration was performed on all the terra cotta which consisted of rebuilding balusters and handrails that were demolished in the 1950's. Detailing of existing terra cotta included hand patching queen's crown and eagle's beaks. Other masonry restoration included: granite replacement, limestone cleaning, tuck-pointing, and brick replacement. Won award for 2011 PROJECT OF THE YEAR by Masonry Construction Magazine.
Project Value - \$6,273,000
- **DIXIE BREWERY** - Collaborated with the federal government, general contractor and architect team to provide and present a design build solution to blast proofing the existing masonry façade. Repairs included: tuck-pointing, brick replacement, structural steel repairs, blast proofing design and installation.
Project Value - \$6,450,000
